1. Enter Teacher Code - enter your three digit code first to ensure you are seeing information specifically for your classroom.
2. Enter Number of Students - enter a multiple of three large enough for your class size. (Generated list is consistent)
3. Generate Class Codes - click this button for a list of codes to distribute to your students.
4. Copy/Paste Class Codes - select the text and copy it to paste it elsewhere.
5. Download Class Code List - click this button for a file to print the list either as a reference to yourself or for cutting and handing codes to each student.
